Date: 12/3/2014 ***Status:*** Reviewed - Assigned to NDDoH Division

Author: Roberts, Kris

Updated Volume:

Notes:

Overflow of gasoline inside tank containment structure at the Racers Truck Stop in Williston, just north of Walmart. This is an above-ground storage tank site with containment. Strata is responding. Appears there may be no impermeable liner under the storage tanks, but Strata is not sure at this point. Gasoline is mixed into ice and snow in the containment. They have dug down approximately 1 foot into the base. Gasoline appears to be seeping under one of the tanks. Vacuum truck has been on scene, and additional work is ongoing this date.
